Training

Why choose ZOHO INVENTORY?

SMART ACCOUNTING SOFTWARE FOR MODERN BUSINESSES

Zoho Inventory helps manage stock, automate orders, track sales, and streamline operations — all from one powerful dashboard.

SEAMLESSLY INTEGRATES WITH E-COMMERCE & ACCOUNTING

Connects with platforms like Amazon, Flipkart, Shopify, and Zoho Books — giving full control over inventory and finance.

IDEAL FOR RETAILERS, WHOLESALEERS & E-COMMERCE

Used by businesses across India and globally to handle multi-warehouse inventory, purchase orders, deliveries, and returns.

HIGHLY VALUED BY GROWING COMPANIES

Firms using Zoho One or running product-based operations look for inventory professionals who can optimize stock levels and prevent losses.

ZOHO INVENTORY

Course Curriculum

Lesson 1: Introduction to Zoho Inventory

- What is Zoho Inventory?
- Core features and modules overview
- Setup wizard and initial configuration
- Understanding inventory workflows

Lesson 2: Organization Setup & Basic Configuration

Lesson 14: Automation & Customization

- Workflow rules and custom functions
- Email alerts and field updates
- Custom templates for documents
- Barcode scanning and serial number tracking

Final Project & Review

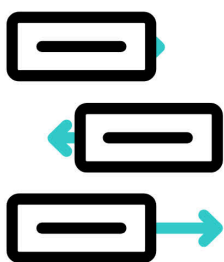

- Full business scenario: Order to Delivery cycle
- Q&A and troubleshooting
- Admin tips and best practices
- Certification or assessment (optional)

Hands-On Project

Smart Inventory & Order Management App

Automate stock management and streamline sales.

Create a smart inventory app integrated with Zoho Inventory. Users can manage product stock, generate sales and purchase orders automatically, and track shipments—all in one place.

Inventory Reorder Alert App

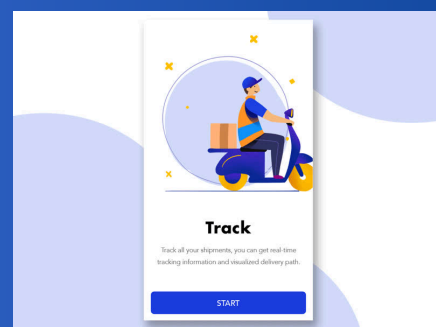

Never run out of stock—get alerts for low inventory!

Build an app that monitors product stock levels in Zoho Inventory and sends automatic alerts (email or WhatsApp) when quantities drop below a defined threshold.

Shipment Tracker App

Track your shipments from order to delivery.

Integrate with Zoho Inventory and shipping providers to build a shipment tracking portal. Customers and admins can view the real-time status of shipments.

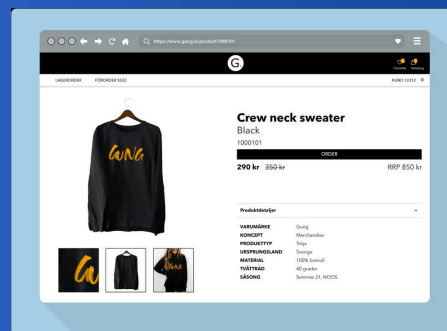

Hands-On Project

B2B Order Portal

Let your clients place bulk orders directly.

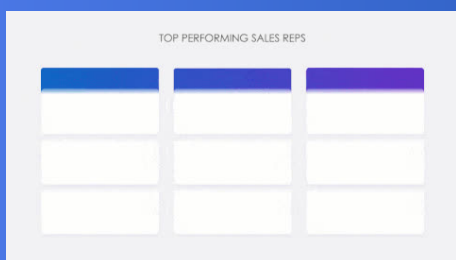

Design a web app for wholesale buyers to log in, browse available inventory, and place orders. Orders are synced to Zoho Inventory automatically.

Sales & Inventory Dashboard

Visualize your business performance in real time.

Create an interactive dashboard app that pulls sales, purchase, and inventory data from Zoho Inventory. Users can view revenue trends, stock movements, and more.
